

EXPERTISE YOU CAN RELY ON

Mary Ann Morse Healthcare Center has consistently earned a 5-Star Overall Rating from the Centers of Medicare & Medicaid Services (CMS), and is accredited by The Joint Commission.

In addition, our physical and occupational therapists are fully licensed and hold some of the highest designations within their respective fields.

OUR ONGOING COMMITMENT TO SAFE CARE

We strive to provide the safest possible environment for our patients, visitors, and staff. Patient safety has always been at the heart of our mission. Now more than ever, we continue to employ vigilant prevention measures to help reduce the risk of infection, adhering to stringent cleaning and disinfection protocols as recommended by the CDC, EOEA, DPH, and local health departments.

The goal of any rehabilitation program is to help you get back to the same quality of life you enjoyed before an injury or illness. At Mary Ann Morse, our highly qualified, certified rehab clinicians and therapists have been helping countless seniors return to the highest levels of independence and health possible, whether recovering from:

- Surgery
- Joint Replacement
- Neurological & Movement Disorders (including Parkinson's, head injury, or stroke)
- Injury
- Illness
- Chronic conditions (such as back pain and arthritis)
- And other health challenges

We welcome the chance to do the same for you. Our therapists can create an individualized treatment plan for your specific needs, abilities, and recovery goals, and can work with you to help ensure your personal success.

FOCUSED ON YOUR HEALTH AND WELL-BEING

Whether you're recovering from surgery, an injury, or simply need assistance regaining strength following hospitalization, our staff is here for you. Specializing in senior care and rehabilitation techniques and therapies, our professionals provide a range of services, including:

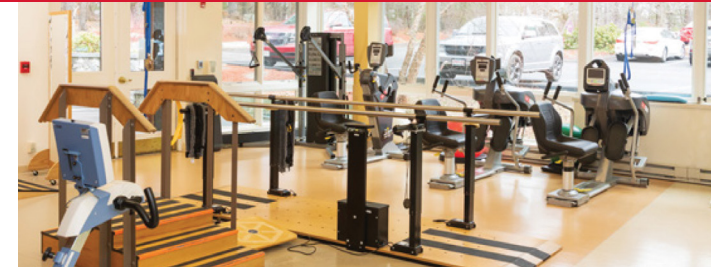

Physical Therapy - focusing on independent mobility, regaining strength and balance, and using proper body posture and movements to better perform everyday tasks.

Occupational Therapy - specializing in promoting optimal function within the home and community, working with a variety of conditions to help maintain independence.

Speech & Language Therapy – concentrating on increasing communication and cognitive skills, as well as safe swallowing skills through diet modifications, special feeding practices, and other techniques.

LSVT BIG® Parkinson's Therapy – Our LSVT BIG Therapy® trained and licensed clinicians provide Lee Silverman Voice Treatment® physical therapy, designed to help individuals with Parkinson's disease and other similar conditions improve skills such as walking and balance. The program includes general conditioning exercises, functional training, and gait and balance therapy, and can be customized to individual needs and goals.

Whatever your goals, our certified therapists work closely with you, your physicians, and your loved ones to design a treatment plan just for you while supporting you throughout your rehabilitation.

A STATE-OF-THE-ART REHAB CENTER

Mary Ann Morse Healthcare Center offers the latest in rehabilitation equipment and technologies, designed to help guide and support you along your healthcare journey. Cutting-edge equipment available within our bright, spacious, first-floor walk-in center includes:
